

School holiday activity provision 2020

updated 27 July 2020

Wiltshire Council

INTRODUCTION

Dear parents/carers

We have produced this directory to give you an idea of the range of activities available for children aged from 5 to 12 years during the 2020 summer holidays including for families with vulnerable children and children of key workers.

The information relates to a number of providers from across the Wiltshire Council area, who have indicated they will be providing a programme of child care over the holidays.

The detail we have included only provides a snapshot of the range of opportunities available so we would encourage you to contact the provider directly, to check their websites for further details and to ensure the activity is right for your child.

Any providers delivering OFSTED registered activity are clearly marked. All other providers have been asked to provide key health and safety and safeguarding information ahead of being included in this document. We have also asked all providers to be aware of the latest government guidance on social distancing. However inclusion does not indicate an endorsement and parents/carers should always research any child care ahead of allowing their child to attend.

This is a dynamic document and provision will be added as more providers send over details, so please come back to review this booklet on a regular basis.

Thank you, and we hope you all enjoy a great summer.
